sales.globalc@gmail.com

PowerBeam conveniently delivers power and data far beyond the wall, floor, ceiling or column. Planning space is simplified while user needs are supported with ease.

PowerBeam effortlessly integrates with storage, height adjustable and fixed height tables, privacy screens—and more! From minimally designed workspaces to moderately outfitted workstations, you'll never compromise flexibility or power access.

**POWERBENCH HEIGHT
ADJUSTABLE BENCHING**
FIND A FRESH PERSPECTIVE

PowerBench takes the proven spine power kit used in PowerBeam and delivers power effortlessly to users without disrupting workflow. Its laminate, enclosed base conceals the height adjustable legs, creating an upscale and quiet design. PowerBench provides a feeling of permanence, offering users a strong sense of place in an ever changing workplace.

OXYGEN® BENCHING SYSTEM
CREATE A LITTLE BREATHING ROOM

Whether creating touchdown areas or collaborative spaces, Oxygen benching streamlines the design without forfeiting options. Customize the space for users with screens, suspended storage, impromptu guest seating and more. And with lockers nearby, larger personal storage items can be secured.

CALIBRATE® COMMUNITY GIVE CHANGE A PLACE AT THE TABLE

Some offices get outdated by change.
Others simply outsmart it. At AIS, we're always
looking for ways to design spaces that can
go with the flow, flexing to stay relevant and
help people adapt to change.

Forward thinking features like its flip door access panel quickly conceal power cords without inconveniencing users. And its sliding rail for tables encourages people to switch things up whenever the occasion calls for it.
